EXECUTIVE SUMMARY

Computer Science graduate with hands-on experience developing software applications, backend systems, REST APIs, and database-driven solutions. Strong problem-solving, leadership, and teamwork skills developed through technical projects and collegiate athletics. Eager to contribute to innovative technology teams while continuing to learn, grow, and deliver impactful solutions.

SKILLS

Languages & Backend: Python, Java, JavaScript, Node.js, Express, REST APIs,
Database & Tools: Docker, AWS, SQL, SQLite, Sequelize, Git, GitHub, Postman, JWT, bcrypt, Jest, Google Cloud, Render, Generative AI
Spoken Languages: English(Native), French (Native)

RELEVANT COURSEWORK

Application Development II: Frontend • Application Development I: Backend • Data Ethics • Data Structures • Inside of a Microprocessor • Intro to C: How Computers Really Work • Modern Technologies • Programming for Everyone II

EDUCATION

Belmont Abbey College *July 2026*
Bachelor of Science in Computer Science Belmont, NC

CERTIFICATIONS

- Introduction to Cybersecurity Tools & Cyber Attacks – IBM (Apr 2023)
- Homeland Security & Cybersecurity Connection – University of Colorado (Apr 2023)
- Network Security & Database Vulnerabilities – IBM (Apr 2023)

PROJECTS

Basketball Tournament Management API

- Built a REST API using Node.js, Express, and Sequelize to manage teams, players, and games
- Implemented JWT authentication and role-based authorization
- Developed full CRUD functionality and deployed to production on Render
- GitHub: github.com/DLubamba0/Final-project | Live: basketball-api-mlhy.onrender.com

Recipe Sharing Application

- Developed a full-stack web application with create, view, update, and delete recipe functionality
- Designed RESTful API endpoints and integrated SQLite database storage using Sequelize
- Organized application data through a structured backend architecture with full CRUD functionality
- GitHub: github.com/DLubamba0/final-project-recipe-app

ACTIVITIES

Men's Basketball Program — Belmont Abbey College
Team Captain / Student-Athlete 24-25, 25-26

- Led teammates through practices, games, and competitive play as Team Captain
- Demonstrated leadership, time management, and teamwork while balancing a full academic course load

Career Services Student Club — Belmont Abbey College
Member

- Engaged in career development events, networking sessions, and professional workshops to strengthen communication, leadership, and job search skills while connecting with employers and industry professionals.
